Victory 500™ foam support surface provides pressure redistribution and shear reduction for optimal patient comfort. High-resiliency viscoelastic foot end is softer than the rest of the surface to protect vulnerable heels. Full-length base foam helps prevent bottoming out. Optional Mattress Asset Protection (MAP) Liner™ safeguards internal components and reduces shear.

— Low-shear, antimicrobial, fluid-resistant top cover
— Full-length base foam prevents bottoming out
— Optional RF-welded seams for max infection control
— Made-to-order item
