Shuttle™ A and B Series
Safe Patient Handling and Mobility Chair

Shuttle™ A and B Series wheelchairs transform from chair to stretcher, and are ideal for use with lateral transfer devices. Shuttle’s leg supports elevate independently for enhanced patient comfort, and the chair features a stand-assist function and ambulation poles to aid caregivers with patient mobility.

— Transforms from stretcher to chair to stand-assist device
— Ideal for use in lateral transfers
— Leg supports elevate independently
— Standard (Shuttle A) and Bariatric (Shuttle B) versions available
— Optional Power Drive enhances safe patient handling
