Introducing Evolution™ Expandable – the next generation in versatile, patient care beds. With an 850 pound capacity and class leading 9” low position, the Evolution™ Expandable is a safe option for ‘at risk fall’ patients. The deck height of 30.75” allows for an adjustable ergonomic working environment for care providers of all sizes and the bed can transport a patient in any high or low position. The deck width expands from 39” to 42” to 48” allowing for flexibility in meeting patient needs. When combined with our therapeutic support surfaces, the Evolution™ Expandable can provide alternation therapy, pulsation therapy or rotational therapy with percussion and vibration to accommodate a wide array of patient needs. The Rest Secure System™ is an integrated scale, bed exit alarm and protocol timer that interfaces with the nurse call system. Caregiver lockout controls, nurse call interface, bed exit alarm, cardio chair positioning, 20 degree Trendelenberg and Reverse Trendelenberg make the Evolution™ Expandable the ideal bed for any care environment.
SIZEWISE™: Evolution™ Expandable
