

# Envy<sup>®</sup> S Series<sup>™</sup>

Pressure Redistribution Stretcher Pad

The Envy<sup>®</sup> S Series<sup>™</sup> stretcher pad system features F3 Free<sup>™</sup> construction, which reduces harmful chemicals in the fabric, foam, and fire barrier. The pad contours to the patient's body and provides low-interface pressure, aiding in pressure injury prevention. A high-density foam perimeter provides additional stability while enhancing comfort.

- *F3 Free<sup>™</sup> construction reduces harmful chemicals in the fabric, foam, and fire barrier*
- *Provides low-interface pressure and optimal contour*
- *High-density foam perimeter for additional stability*
- *Heel slope offloads pressure from the heels for extra comfort*
