Behavioral Health Bed™ – Platform

Behavioral Health Bed™ – Platform provides optimal patient and caregiver safety. Made from high-density polyethylene and built with tamper-resistant fasteners, the Platform is durable and easy to clean. Anchor points fasten the bed to the floor, ensuring the bed is stable and secure. Available in mist or cocoa with multiple head/footboard profiles, lift openings, and bed risers.

— High-density polyethylene: durable and easy to clean
— Tamper-resistant fasteners
— Anchor points allow bed to be secured to floor
— Safe working load of 1,000 lbs.
— Full-enclosure base and low-profile head/footboards available

sizewise.com  800-814-9389
1 — Two color options: mist (see front) or cocoa (shown with standard head/footboard and optional restraint slots)

2 — Optional lift opening accommodates Bari Lift and Transfer™ and other patient lifts

3 — Four anchor points allow bed to be secured to floor

4 — Available Behavioral Health Mattress™ designed with safety in mind

5 — Optional restraint slots
