COST CONSCIOUS RESIDENT BED

[01] **SYNCHRONIZED HIGH-LOW MOTORS**
Keep the bed level for proper therapeutic positioning

[02] **INTUITIVE TWO-PEDAL LOCKING SYSTEM**
Centrally positioned and easily visible from a distance to ensure bed is locked

SIZEWISE™

SW Source™

The SW Source™ bed provides comfort, safety and efficient operation at an affordable price. Synchronized high-low motors keep the bed level for proper therapeutic positioning while the strong, no-sag grid deck sleep surface provides a sturdy support platform. The bed easily adjusts for use at a 76" or 80" length with the adjustable mattress retainer securely supporting the mattress position for either bed length. The adjustable wall saver positions provide the smallest footprint at each length, while protecting the wall. Also included is the edema foot ratchet to provide elevation at the foot end of the bed.

The intuitively designed two-pedal locking system is centrally positioned and easily visible from a distance to ensure the bed is locked. The pedal locks are readily accessible at all bed heights and widths, even in the lowest position. The SW Source rolls at any height, reducing caregiver back strain, and has an industry-leading maximum underbed clearance for use with overbed tables and lifts.

The handheld patient pendant controller can connect to either side of the bed to adapt to varying room layouts and is shock-resistant and splash-proof for enhanced durability. The optional embedded staff control in the footboard is angled for better visibility and offers a two-stage lockout: lockout of patient control pendant and lockout of embedded staff control. Also optional are the half-length assist device and assist bars that provide a sturdy and secure handhold to assist residents in and out of bed.

Designed to follow the highest safety and quality standards the SW Source bed was built to conform to UL 60601-1, IEC601-2-38, and CAN/CSA C22.2 No. 601.1 and offers a grounded standard hospital grade plug, splash-proof electronics, no pinch points within 200mm of bed perimeter and is load capacity and tip-stability tested and approved. The SW Source bed has a safe working load of 600 lbs.

SPECS	BED	WARRANTY
	Height Travel Range.....7" to 30"	15 years on frame
	Weight Capacity* 600 lbs.	5 years on motors and control box (longest motor warranty in the industry)
	Mattress Deck Length..... 76"/80"/84"	3 years on other electronics
	Mattress Deck Width 35"	U.S. Patents- Multiple Patents Pending
	Overall Bed Length (76"/80") 81.75"/85.75" with wall saver	OPTIONS
	Overall Bed Width..... 39" with assist bar	Trapeze
	Overall Bed Width.....39.9" with half-length assist devices	
	Maximum back angle 70°	
	Maximum knee angle 30°	
*including resident, support surface, head/foot boards, and accessories
