

Hercules™ Bolsters

Patient Repositioning Accessory

Key Specs

Width	4.5"
Length	78.5"
Height (foam)	7"
Height (air).....	8.5"
Fabric	Nylon 70-Denier Polyurethane Coated

Hercules™ Foam Bolsters help expand our 39" Hercules Patient Repositioner™ (foam or air) to fit a 48" wide bed frame for added capacity and comfort. Seams are RF-welded for durability and infection prevention. A cutout allows for easy access to head-end controls.

- *Expands Hercules Patient Repositioner from 39" to 48"*
- *Cutout for ease of access to controls*
- *RF-welded seams for infection prevention*
