

Instant Comfort® 6 and 8 Series

Air-Adjustable Sleep Lab Bed

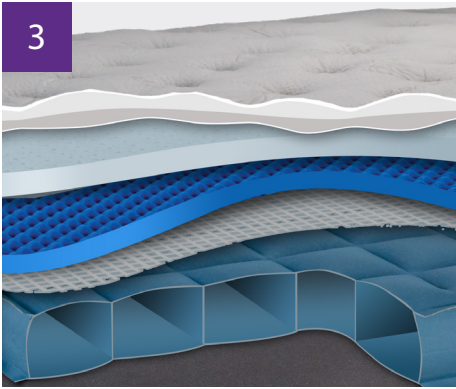

Shown with optional Adjustable Power Base

Finally: durable, reliable beds that serve the unique needs of a busy sleep lab. Instant Comfort® 6 and 8 Series beds offer air comfort with an optional adjustable base, giving patients optimal sleep conditions while in your center. Instant Comfort combines the best sleep system technology available in an air-adjustable number bed with gel-infused memory foam top layer.

- *Best of both worlds: consumer-grade features with medical-grade cover, manufactured by an FDA-registered company*
- *45 levels of air adjustability and optional power base for ultimate personalization*
- *Components are easy to replace or upgrade*
- *ThermaPhase Gel™ memory foam layer absorbs and dissipates heat*
