

Hercules Positioning Sheet

The Hercules positioning sheet is designed to meet the needs of today's healthcare patient. The positioning sheet, comprised of 100% synthetic lint-free fibers, creates a soft and comfortable environment for the patient. The positioning sheet is a low abrasion surface that helps minimize skin irritation. The breathability of the sheet reduces the risk of heat and moisture buildup under the patient providing a drier alternative to traditional cotton blend sheets.

The Hercules positioning sheet is twice the length of a standard flat sheet allowing 8 to 10 patient repositionings per use. The sheet fastens into clips along the length of the sleep surface to help keep the sheet aligned during repositioning and to help prevent excess wrinkling underneath the patient.

Patient

- Soft fabric provides a comfortable environment for the patient
- Lint-free fabric helps prevent transfer of fibers to open wounds
- Synthetic fibers naturally resist bacteria growth
- Breathable fabric reduces the risk of heat and moisture buildup

Laundry

- Fast drying material can make laundering more efficient
- Synthetic fibers naturally resist staining helping extend the life of the sheet

Hercules Positioning Sheet Specifications

Length	192"
Width	42"
Weight	1.5 lbs.
Composition	100 % Polyester
