

Behavioral Health Mattress™

Ligature-Resistant Pressure Redistribution

Our Behavioral Health Mattress is a safe option for diverse patient body types and weights in a very specialized environment. The surface's RF-welded seams eliminate the risk of accessing the product's internal components, and the defined perimeter design adds an extra sense of security for patients at risk of wandering—especially helpful for fall risk or dementia patients. Behavioral Health Mattress is an Envy® product, which reduces chemicals of concern in the fabric, foam, and fire barrier.

- *Designed for use in behavioral health environment*
- *Durable, RF-welded seams replace zipper, ensuring safety*
- *Defined perimeter design adds extra sense of security*
- *Fits Behavioral Health Bed™, Behavioral Health Bed™ – Platform, and other facility-owned frames*
